Name	Grade	Comments
Sheryl D.	?	I only read 50 pages, so I cannot hold an honorable comment about this young mans journey. I really enjoyed the discussion - especially the flavor of friendship during the meal & the double rainbow "what a desert"!
Diane Davis	C-	The story line got me through a nasty spring storm, but the would-be message was pretentious. When it comes out in movie form - I won't be seeing it.
Nora Ruppert	D	Pretentious claptrap passing as enlightenment. Ain't no answers here. Or questions.
Judy Bush	C+	This was a pretentious book - the whole Personal Legend. What a load of crap! He tried to be profound, but succeeded in sounding like he was searching for life. The story was nice & interesting, however if you ignore the philosophizing
