Name	Grade	Comments
Jan Lewallen	A+	I loved Wiesel's telling of his feelings & observations - Could not put this down.
Sheryl Davidson	A+	The reality and life story of Brother Wiesel is heart wrenching both for the good & bad - I could hear his voice tell the story after hearing the wonderful experience of seeing him. <del>Thank you Nora for</del>
Nora Ruppert	A	Quelling book & very real. It's an even-handed way of dealing with a horrendous subject. It's amazing to survive this experience with the respect for humanity that Wiesel does.
Judy Bush	A	We should never forget this story. It is an incredible story of cruelty, yet not overdone or told in a gruesome manner. The author was gifted to be able to share this terrible experience with us so we can prevent it from happening again.
Martha Boon	A	I listened to this book and it was riveting. To hear the story of the concentration camp through the eyes of a teenager was fascinating and extremely sad. An excellent book.
Simon Davis		after the first chapter, I was so emotionally stricken I could not continue. It was as if I were an eye witness to these events.
