Book and Movie Review
The Story of a Marriage

June 3, 2008
by Andrew Greer

Name	Grade	Comments
Shenyl <i>xx J</i>	C	Can't wait to meet this author and find out about so many questions this book brings up to my mind - I did enjoy some of the anticipation of what we'll be next but left me missing some of the points - think God were
Martha	B	This book really kept my attention, but also kept me slightly confused. I would have liked to hear from Holland, since he was such a central character. Very cleverly put together - I enjoyed it.
Nora	C	I thought the book was a little clumsy in handling the story through a narrator that seems exceptionally obtuse - too much that is introduced is never resolved.
Diane	C	This book was an easy read. It was unsatisfying but I couldn't figure out why until Nora figured it out for me.
Judy Bush	B [#]	This was an easy read, but sometimes contrived - the author pops things on you with no foreshadowing. I liked the ending, but thought the last several chapters drug on too long. The peripheral stories had nothing to do w/ the main story
